HTML / CSS / PHP

OBJECTIVE C

SQL

## PROFILE

Award-winning recent graduate of a top-tier university with 2+ years of experience in native iOS / Android mobile application development. Rigorous and deeply committed to my work, I am always looking to grow and reach higher objectives and professional goals. Passionate and creative, I now seek to contribute my experience, skills and expertise to your company. I am currently working at SafetyCulture in Sydney on a Working Holiday Visa (subclass 417).

## EXPERIENCE

- Now  
16/12/2019
- Mobile Software Engineer II (iOS/Android)  
*SafetyCulture - Sydney (Australia)*
    - Work on an Android and iOS native inspection application for phones and tablets using Kotlin, Swift, Java, and Objective C
    - Focus on providing the best user experience to hundreds of thousands of front line workers to improve safety and quality
    - Work on a C++ shared library used by mobile clients
    - Deliver project needs on time and within acceptance criteria in an Agile Methodology Environment
- 20/09/2019  
02/05/2016
- Freelance Mobile application & Web developer  
*Paris/Metz (France)*
    - Design, prototype and develop websites and Android/iOS native mobile applications
    - Web Developer: Cabinet dentaire Metzervisse (July-September 2019)
    - Mobile Application Developer: Goodbye Comfort Zone (March-June 2019)
    - Web and Mobile Application Developer: Just-Mining (March-June 2018)
    - Web and Mobile Application Developer: Vivoka (August 2017)
    - Mobile Application Developer: BigInt (May-July 2016)
- 09/11/2018  
15/09/2017
- Mobile Software Engineer I (iOS/Android)  
*Vivoka - Metz (France)*
    - Design, develop and prototype Android, iOS native customer applications for phones and tablets for internal and external use
    - Work with third-party libraries and APIs
    - Integrate Vivoka's voice assistant in existing client application
    - Troubleshoot issues, bugs and improve application performance
    - Translate client requirements into technical architecture
- 31/03/2016  
01/10/2015
- Mobile and Web Developer Intern (3d / week)  
*Vivoka - Metz (France)*
    - Support the development of the Vivoka website
    - Develop a mobile application used to (design/plan) a house, and arrange furniture on it
